

I signed up for the New Jersey Do Not Call because I did not want even companies I currently do business with calling me to sell me other products/services.

I would rather get the junk mail.

The calls clog up my answering machine and have the potential to spill to my cell phone which would definitely cost money I am not willing to spend. The other issue is, any calls I get now, if I cannot identify the caller, I don't answer. This is not desirable, since some calls I need to take for personal business come in unidentified. If I answer and it isn't someone I need to speak with, I feel compelled to hang up (hate being that rude, but if not given the choice, this will happen).

Should this happen I will seek all means to block those calls to prevent being inundated with calls I do not want.

Thanks you for the opportunity to oppose this. I do not believe it is the right thing.
